

**HONOR AMONG POLITICIANS.**—The city of Rochester can boast of having at least two honest politicians. In canvassing the votes for Mayor last week, a number of informal votes came before the Board of Canvassers, which would have elected the Whig candidate if allowed. It so happened that the Whig candidate, Mr. Allen was president of the board, in his official capacity of Mayor, to which office he was elected last year, and on accepting the informal ballots, the board being equally divided, he gave the casting vote for the rejection, thus securing the election of his opponent, Mr. Keeler, the Democratic candidate. Not to be outdone in politeness, Mr. Keeler at once resigned, leaving Mr. Allen to act for another year as provided for by the City Charter under such circumstances. But Mr. Allen would not hold over and he too resigned! A new election will be held. The Common Council passed resolutions approving the honorable conduct of both. If all politicians were like Messrs. Allen and Keeler, we would have good government, N. Y. Sun.

**SINGULAR COINCIDENCE.**—The appointment of Mr. Bancroft as a member of Mr. Polk's Cabinet has created a great deal of observation, and many of the small critics of the day have been lavish of their abuse and fruitless of their predictions of his want of capacity. History and experience teaches us differently. Louis Philippe has at this moment one of the greatest philosophical historians of the age at the head of his ministry—Guizot; and formerly he had Thiers, also an eminent historian, in the same position. Mr. Bancroft, the best historian of the United States, is now in nearly the same position in this government, and we have no doubt he has the elements of a statesman in us great abundance as either Thiers or Guizot. These facts form a singular coincidence in the conduct of Louis Philippe and President Polk.—N. Y. Herald.

**MR. WOODBURY.**—Letter-writers at Washington says that Hon. Levi Woodbury will be the leader of the administration party in the Senate. No man is better entitled to that position, or more deserving the confidence of Mr. Polk's administration, than the distinguished Senator from New Hampshire. To Mr. Woodbury is it mainly owing that the Democratic party of the North rallied on the great issue of the annexation of Texas, when Mr. Van Buren and others fell back. On all occasions, and in all places, he sustained the action of the Baltimore Convention with an ability and devotedness which the Democracy will long remember.—Worcester Palladium.

**Keep cool, brothers.**—The Eastern Argus has the following:—The Daily Mail says, "The Portland people are moving heaven and earth to build the Rail Road from Portland to Montreal. Good. There is but one other place to move, and that is Maine and one or two other States. From any one of these, they will succeed as well as Maine, generally do, who apply in that quarter for help."

**Revenge.**—In New Jersey the Legislature used to elect Justices of the Peace, but the new Constitution vests that right in the people. The politicians in Woolwich township were so vexed at the change, that at a recent election for Justices of the Peace they voted in by a triumphant majority two respectable maid ladies, Sally Brown and Betsy French.

**Moose.**—Eleven carcasses of Moose were brought into the city of Bangor in one day last week together with a live one. They were all taken in Paten. The whole lot says the Bangor Courier, was "to be taken to Boston in order to give the people there a taste of Down East production."

**The Washington correspondent of the Journal of Commerce says:**—"News is in town from Texas, which discloses the fact that the House Resolutions will be adopted by the people of Texas almost by acclamation."

The news of the annexation of Texas created the most lively satisfaction in New Orleans. A salute of twenty-six guns was fired on the public square in honor of the reception of the young republic into the family of the kindred States.

There was a "little nigger" in our city, says the Arkansas Intelligencer, who had such extraordinary long heels, that a wit observed "that he was ten years old before it could be decided which way the fellow would walk."

**Water Spouts.**—The Rev. Isaac Anderson, in a letter published in the Murfreesboro Telegraph, Tenn. states that on the evening of the 27th July last, not less than one hundred water spouts descended from the clouds upon Chilhowee mountain, and that the water from each spout fell with such momentum as to force its way into the earth ten or twelve feet, and to cut a large channel in its way down the mountain, carrying with it rocks, trees, and roots and depositing them at the base of the mountain.

**See of Bangor.**—We understand that it is probable that Bangor will soon become the residence of a Catholic Bishop, who is now at Rome for the purpose of taking orders. It is presumed that the whole State will compose his Diocese. In this case a splendid cathedral church will be erected here, and some immunities have been thrown out of purchasing the land now occupied by Arnold's stable, on Main street, for its site. It is said the Society of the Propaganda are to furnish funds.—Bangor Mercury.

**THE RUINS OF NINEVAH.**—The French papers announce that M. Botta, French Consul at Mosul, in the neighborhood of ancient Ninevah, has succeeded in clearing the grand southern facade of a subterranean palace of Ninevah. The vast entrance of the front has been cleared: six colossal bulls with the heads of men, and two human statues, also colossal, straggle lions in their arms, for its principal ornaments. These sculptures are said to be of great beauty, and as fresh as if executed yesterday. These figures are to be, if possible, transported to Paris. It will be recollected that these discoveries have been made where only dreary mounds of rubbish, traversed by deep and narrow ravines indicate the lines of streets and mark the sites of this mighty city. Ninevah had fifteen hundred towers—its walls were a hundred feet in height, and had space on their summit for three chariots abreast, but all seemed utterly ruined; yet from beneath its dust has the long buried art of the Assyrians been recovered.

**Dr. Franklin on Spelling.**—Dr. Franklin says in one of his letters:—"You need not be concerned in writing to me, about your bad spelling; for in my opinion, what is called bad spelling is generally the best, as conforming to the sound of the letter. To give you an instance, a gentleman received a letter in which were these words:—"Not finding Brown at home I delivered my message to his wife." The gentleman called his wife to help him read it. Between them they picked out all but the *ff* which they could not understand. The lady proposed calling her chambermaid, "because Betty," said she "has the best knack of reading bad spelling of any one I know." Betty came and was much surprised that neither of them could tell what the *ff* was. "Why," says she "it spells wife—what else can it spell?" And, indeed, it is much better, as well as a shorter method than doubling *i, f, e*, which in reality spells *doubtful*."

**THE PAINTERS.** Mr. Severance, (now a member of Congress) says of general Cameron, just elected U. S. senator from Pennsylvania, that something more than twenty years ago, he worked by his side, as a journeyman, in Gales & Seaton's printing office at Washington, and boarded at the same house with him.

**Don't make fun of us.** The Mexican Congress have in consideration, a bill prohibiting newspapers from ridiculing their honors. Lawgivers who make themselves ridiculous, ought to be laughed at.

**Fire.** Hall and Dyer's Grocery store, Fore Street, Portland, with most of the Goods was burnt on Tuesday night. The store of Mr. J. F. Weeks, was partially injured, and part of the goods removed.

The Masonic Societies of Massachusetts are to have a grand celebration in Boston on the 17th of June, and the Odd Fellows a jubilee and procession on the 19th.

### MURDER OF C. R. THOMPSON.

The circumstances of the homicide murder of this estimable citizen in the Court House at Mount Sterling, Ky. are thus related by a correspondent of the Lexington Enquirer.

I witnessed to-day, the most tragic scene ever enacted in a Court House, in the murder of your distinguished townsman, Clifton R. Thompson, by Henry Daniel. A suit had been brought by Thompson against Daniel at the last March term. Daniel procured a continuance of the cause by a verbal statement until the September term. At the September term he was again ready but was compelled to give a written affidavit, setting forth the ground upon which he wished to get a continuance. The case was continued. To-day the case was called, and he came forward with another affidavit for another continuance. This so provoked Thompson that he requested his counsel to permit him to answer the affidavit, which contained much low personal abuse of himself. In his answer Mr. Thompson was remarkably courteous and dignified, until he came to the ungentlemanly slant about his having swindled his sister, (Daniel's wife.) Thompson pronounced low and contemptible slander. Daniel told him not to repeat that again. Thompson repeated it. Daniel drew a pistol, took a deliberate aim and shot him through the heart before any one could intervene. As soon as he had fired he made a dash for the door, thinking, doubtless, that he could not be pursued. But, alas! his speed was his ruin; he was soon motionless on a mound of blood, a sup or two, fell on his face, and lay motionless, a lifeless corpse. Oh! 'twas a hard spectacle to see the great doctor, who but a moment before had held the court, the bar, the jury and the people entranced in mute astonishment with a powerful but indignant eloquence, converted in a moment's time into a pulchre corpse! He had but two and a half minutes' say nor a word, uttered not a roan nor a murmur. His brother William was present, and I never saw a man so deeply affected. The Court immediately ordered the Sheriff to imprison Daniel, or I think the excited populace would have lynched him on the spot. The Court adjourned immediately after the occurrence.

**OREGON AND CALIFORNIA.** The Cincinnati Enquirer says that some of the Oregon emigrants have pushed on further west—gone to California—its getting "too crowded" in Oregon—want more room. They represent the land so productive in the neighborhood of San Francisco, that one bushel of wheat sown, frequently yields a crop of seventy-five bushels, and this with very little trouble, while the climate is so dry and pure, that sickness is almost unknown. To illustrate the dryness of the climate, it is but necessary to state that wheat, flax, fruit, &c. manufactured in New

England of the best seasoned timber, shrink up shortly after reaching this section of California, and fall to pieces unless every precaution is taken. American emigrants are constantly arriving and settling at the Sacramento and other streams emptying into the bay of San Francisco. At the Yerba Buena the English is the principle language spoken, the Alcalde being the American, and the time is not far distant when this part of California will teem with Anglo-Saxon civilization and the thrifty products of Anglo-Saxon hands.

**ATLANTIC & ST. LAWRENCE RAIL-ROAD.** The New York Express of Friday has the following comments, in its Money Article, upon this great enterprise, which is now the all-roaring topic of conversation among our own citizens, as well as among those along the line to Montreal, and also in the latter city:—"The success of the Atlantic and St. Lawrence Rail Road Bill in the Canadian Parliament, is announced by the Portland papers, in advance of its receipt in New York by the Northern mail. As was to be expected, the people interested are much elated, and the proper steps are to be taken at once to obtain the necessary surveys, and to procure the funds. The Chartered by the Canadians, is of the most liberal kind, and the road has nothing to contend with but the obstacles of nature, and nothing to prevent its success, if there is or can be, business enough to support it."

It has been satisfactorily settled to the capitalists of Boston, that the longer route through New Hampshire and Vermont, will be profitable, and estimating the receipts of the Atlantic route by the same data of the Concord route, (that is, taking the same number of inhabitants) the eastern route will be a good investment. A table of the inhabitants along the two routes, gives the following result. Portland route to Provincial line, 33,418 inhabitants; Concord, N. H. to Provincial line 33,272, on distance of one hundred and sixty-two miles. The increase on the Eastern route since 1840 is much greater than the interior route, and the towns on the eastern route are much superior on account of the business they would furnish the road and are among the best and most thriving towns in western Maine. The last new Railroad project is one from the Atlantic road to the Kennebec, via Lewiston Falls, which is a part of great value for manufacturing purposes. All of these Maine routes will be as profitable as the roads of Massachusetts, Vermont and New Hampshire. The people along the projected lines are as able to support the lines as are those of other parts of New England, and the only serious obstacle is a lack of sufficient capital in the large towns to take the stock. Rival interests may delay the works, but there never can be in this country a lack of those who are ready to furnish the means to build works of internal improvement that promise a liberal return to its owners."

**MILLERISM.** Since the trial of Elder Damon at this place, the Millerites have kept up their meetings continually, in Atkinson, adjoining this town. Fourteen persons, male and female, were baptised on Sunday night last, and a number of them have been re-baptized from four to six times. Their presiding elder or leader was formerly a sea captain pretty long a man, as we are informed, and has a family in Exeter. It is a lamentable fact that so deluded are some of them that they have neglected all kinds of business, and refuse to labor, or provide for the maintenance of their families—which are liable eventually, to become a town charge, unless the selectmen, in their wisdom, immediately interfere. [Dover Far.

**PROTEST OF THE MEXICAN MINISTER.** The New York Evening Gazette gives the following abstract of a protest made by General Almonte to the Secretary of State:—"The undersigned has the honor to address himself to the Hon. Secretary of State in order to manifest the deep concern with which he has seen that the President of the United States has given his signature to a law admitting into this confederacy the Mexican province of Texas."

He had flattered himself that the sound counsels of the most distinguished citizens &c. would have led to a better result. Unhappily it had not been so, a against his hopes and sincere vows, he sees consummated the most unjust act of modern history records—the spoliation of a friendly nation of a considerable part of its territory. For these reasons, in obedience to his instructions, he must protest, and does protest, in the most solemn manner, in the name of his government, against the law, &c. He protests also that the act in a measure invalidates the rights of Mexico to recover her province, of which she is so unjustly dispossessed, and that she will maintain and give effect to those rights by all the means within her power."

He also begs that the Secretary will let the President know that, in view of all these facts, his mission near this government terminates from to-day. He consequently begs that the Hon. Secretary will forward to him his passport, because it is his purpose to leave this city as soon as possible for New York. He avails himself of this occasion, &c."

**REVELATIONS & MYSTERIES OF MILLERISM.**—Rev. J. Turner Ricard 900pp 60c 2d ed. 1844. 400 pp 10c 1845. 400 pp 10c 1846. 400 pp 10c 1847. 400 pp 10c 1848. 400 pp 10c 1849. 400 pp 10c 1850. 400 pp 10c 1851. 400 pp 10c 1852. 400 pp 10c 1853. 400 pp 10c
